

CAOHC APPROVED COURSES

Occupational Hearing Conservation courses include lectures, examinations, and hands-on practical workshop sessions that cover hearing testing, otoscopic screenings, and hearing protection fitting. This training complies with OSHA and MSHA requirements for personnel conducting audiometric testing for Hearing Conservation Programs in mining and general industries.

CERTIFICATION

These courses are approved by the Council for Accreditation in Occupational Hearing Conservation (CAOHC) for certification as an Occupational Hearing Conservationist. Participants who complete the three-day program and pass the examinations will be eligible for CAOHC certification. Those seeking re-certification who attend the 8 hour refresher class will receive documentation of re-certification.

WHO SHOULD ATTEND

Occupational health nurses, physicians, audiometric technicians, industrial hygienists, managers & other health and safety personnel. There are no prerequisites.

CURRICULUM

After successfully completing this course, the participant will be eligible to become an Occupational Hearing Conservationist (OHC) with the following abilities:

- * conduct valid hearing tests
- * check performance & maintain hearing test equipment
- * implement an employee referral system
- * provide employee training & education
- * properly fit & troubleshoot hearing protection
- * develop accurate record keeping
- * understand State & Federal regulations
- * participate on a hearing conservation team
- * comprehend basic principles of noise measurement & control
