

Occupational Hearing Conservation Courses

designed for audiometric technicians and other health and safety personnel

Registration Form

The course includes lectures, examinations, and hands-on practical workshop sessions that cover hearing testing, otoscopic screenings, and hearing protection fitting. This training complies with OSHA and MSHA requirements for personnel conducting audiometric testing for Hearing Conservation Programs in mining and general industries.

NOTE: Web-based registration is not currently available. Please fill in the fields below, print the form, and mail the printed copy. Or print a blank copy and fill it in by hand.
